Kareem Adel

Full Stack Engineer (Tech Lead) @ Leggera | Full-Stack Web
Development
Cairo, Egypt

Summary

Leggera empowers enterprise e-commerce through scalable
architecture and seamless user experiences. As a Full Stack
Engineer (Team Lead), contributed to multi-country platforms
like Almwashi and Misimu, integrating vendor onboarding, multi-
warehouse inventory, and advanced search tools to optimize
complex retail operations.

May University in Cairo provided a solid foundation in Computer
Engineering, further enhanced by certifications in advanced full-stack
web development. Passionate about aligning technical solutions with
business goals, enabling high-performance systems, and fostering
collaborative workflows to drive impactful digital transformations.

Experience

Leggera
9 months

Full Stack Engineer (Tech Lead)
February 2025 - Present (7 months)
Alexandria, Egypt

Senior Software Engineer
December 2024 - February 2025 (3 months)
Alexandria, Egypt

Oversee architecture and end-to-end development of enterprise-scale e-
commerce platforms serving multiple countries and complex operations.

Key Projects:
• Almwashi — Large-scale platform comparable to Amazon/Noon, covering
4 countries with multiple branches per country. Included storefront, vendor
onboarding, multi-warehouse inventory, country-specific pricing, marketing
tools, analytics suite, and delivery system.

• Misimu — Multi-tenant retail platform for 2 countries with advanced product variations, stock management, and branch-level controls. Delivered lightning-fast search using Meilisearch and optimized workflows for large SKU catalogs.

Leadership & Impact:
• Drive technical direction, ensuring architecture decisions support scalability, performance, and maintainability.
• Coordinate development across backend, frontend, and infrastructure.
• Implemented CI/CD pipelines, coding standards, and automated testing to improve release stability and speed.

Mostaql.com | مستقل
Full Stack Engineer
May 2018 - Present (7 years 4 months)

Top-rated freelancer with a 5-star rating. Delivered 10+ successful projects across e-commerce, fintech, real-time systems, and SaaS platforms. Known for rapid delivery, clean architecture, and excellent client communication.

TarmeezTech
Chief Information Technology
February 2024 - December 2024 (11 months)
Saudi Arabia

Built and launched El Massa Elswda — a premium online fashion store in Saudi Arabia specializing in abayas and luxury apparel.

Achievements:
• Developed a single-vendor e-commerce platform with rich product catalogs, category management, and advanced filtering.
• Integrated secure payment processing with multi-currency handling for regional customers.
• Implemented inventory management, order tracking, delivery coordination, and marketing analytics tools.
• Designed a responsive, mobile-first storefront optimized for high-conversion shopping experiences.
• Ensured system reliability during high-traffic seasonal sales events.

Global Gates
Full Stack Engineer
January 2024 - July 2024 (7 months)
United States

In my role at Global Gates, I focused on creating innovative real estate websites that meet industry demands. By managing the full development lifecycle, I ensured that each project was user-friendly and functional. My contributions led to improved client satisfaction and increased website traffic, showcasing my ability to deliver impactful solutions.

Alex Solutions
Database Administrator
2019 - July 2024 (5 years)
Egypt

• Managed and optimized database systems to support innovative solutions in cloud computing and AI.
• Developed and implemented data security protocols, enhancing data integrity and compliance.
• Collaborated with cross-functional teams to streamline database operations, resulting in a 25% increase in efficiency.
